Contents of Volume 47

NO. 1, JANUARY 1989

Diet and Atherogenesis, by William E. Stehbens, MD, DPhil 1
Changes in Postprandial Plasma Lipids and Lipoproteins in Humans 13
Estrogen Receptors in Bone 15
Coronary Heart Disease without Risk Factors 18
Cellular Pathology, Lecture XVI: "Atheromatous Affection of Arteries": Rudolf Virchow 23
Amino Acid Transport and Cellular Glutathione 26
Guar Gum and Hypoglycemia in the Rat 28
Letters to the Editor 31

NO. 2, FEBRUARY 1989

Interpretation of Data on Dietary Intake, by Helen A. Guthrie, PhD 33
Essential Fatty Acid Deficiency in Premature Infants 39
Lack of Adverse Reactions to Iron-Fortified Formula 41
Folate Status of Patients on Low-Dose Methotrexate Therapy 43
Cholesterol Levels in Childhood as Determinants of Adult Cholesterol Levels 46
Iron-Deficiency Anemia with Hypoproteinemia in an Infant 48
"Iron Absorption. IV. The Absorption of Hemoglobin Iron": A. Turnbull, F. Cleton, C.A. Finch, L. Thompson, and J. Martin 51
Parallel Mechanisms of Iron Uptake by Cells 54
Effect of Vitamin A Deficiency in Rats on Glycosylation of Glycoproteins 56
Insulin Activation of Adipocyte Lipoprotein Lipase 58
Regulation of the Gene Expression of a Glycolytic Enzyme in the Zucker Rat 59
Nutrition Notes 62
Letters to the Editor 63

NO. 3, MARCH 1989

The Calcium Deficiency Model for Osteoporosis, by B.E.C. Nordin, MD and H.A. Morris, PhD 65
Optimal Mineral Intakes by Very-Low-Birth-Weight Infants 73
Transfer of Isotopic Dietary Fatty Acids into Human Milk 75
Measuring Human Muscle Protein Synthesis 77
How Ketones Spare Protein in Starvation 80
Osteoporosis Followed by Primary Hyperparathyroidism 82
"Osteoporosis": Fuller Albright, MD 85
Age Decreases the *n*-3 Polyunsaturated Fatty Acids of the Retina 87
Carnitine Metabolism in B_{12} Deficiency 89
Ca^{2+} Priming and Differentiation Induced by 1,25-Dihydroxyvitamin D_3 91
Nutrition Notes 93
Letters to the Editor 94

NO. 4, APRIL 1989

Editor's Note 97
Selenium in Human Nutrition in New Zealand, by Marion F. Robinson, Ph.D. 99
"Factor 3 Activity of Selenium Compounds": Klaus Schwarz and Calvin M. Foltz 108
Postoperative Hypophosphatemia: A Multifactorial Problem 111
Newly Recognized Signs of Selenium Deficiency in Humans 117
Vitamin A and Iron Deficiency 119
Biotin Deficiency Due to Total Parenteral Nutrition Alters Serum Fatty Acid Composition 121
Cyclosporin A Improves the Glucose Tolerance of Young Diabetics 123

Caloric Value of Polydextrose ... 124
Inhibition of Lipid Peroxidation by Monounsaturated Fatty Acids ... 126
Nutrition Notes ... 128

NO. 5, MAY 1989

The Impact of Food Intake and Exercise on Energy Expenditure, by Eric T. Poehlman, Ph.D. and Edward S. Horton, M.D. ... 129
"The Energy Requirement in Strenuous Muscular Exercise": H.T. Edwards, A.A., A. Thorndike, Jr., M.D., and D.B. Dill, Ph.D. ... 138
National Academy of Sciences Report on Diet and Health ... 142
Protein Thiols and α-Tocopherol in Chemical Cytotoxicity ... 150
Regulation of Lipoprotein Lipid Transfer by Unesterified Cholesterol ... 151
Effect of Retinoids on Growth and Differentiation of Myeloid Leukemia Cells ... 153
Phytase and Phytate Degradation in Humans ... 155
A Role for Biotin in Bone Growth ... 157
Nutrition Notes ... 160

NO. 6, JUNE 1989

Lipid Modulators of Cell Function, by Alfred H. Merrill, Jr., Ph.D. ... 161
"Enzyme Secretion and the Incorporation of P^{32} into Phospholipides of Pancreas Slices": Mabel R. Hokin and Lowell E. Hokin ... 170
Possible Enhancement of Carcinogenesis by Selenium in an Animal Tumor Model ... 173
Iron Nutriture and Risk of Cancer ... 176
Vitamin D Receptor Mutations and Familial Rickets ... 179
Riboflavin Status and Resistance to *Plasmodium* ... 181
Utilization of Deuterated Vitamin E Compounds in Rats and Humans ... 183
Immunoglobulin Feeding Prevents Necrotizing Enterocolitis in Formula-Fed Very-Low-Birthweight Infants ... 186
Role of Medium-Chain Triglycerides in Formulas for Premature Infants ... 188
Is Reduced Urinary Calcium Loss in Long-term Parenteral Nutrition Patients an Adaptive Mechanism to Limit Bone Loss? ... 190
Nutrition Notes ... 192

NO. 7, JULY 1989

Changes in the Gastrointestinal Tract during Enteral or Parenteral Feeding, by Clifford W. Lo, M.D., M.P.H., Sc.D., and W. Allan Walker, M.D. ... 193
"Physiological Information Gained from Studies on the Life Raft Ration": James L. Gamble ... 199
Severe Acquired Hypocholesterolemia: Two Case Reports ... 202
Unrecognized Cobalamin-Responsive Neuropsychiatric Disorders ... 208
Fish Oils Reduce Postprandial Lipemia ... 211
Nongenomic Interactions of Retinoic Acid and Thyroid Hormone at the Plasma Membrane ... 213
Glutamine Transport in Muscle Protein Economy ... 215
Ascorbic Acid and Ferritin Catabolism ... 218
Hepatic Zonation of Carbohydrate Metabolism ... 219
Triacylglycerols: Influence of Structure on Metabolism in the Rat ... 221
Nutrition Notes ... 223

NO. 8, AUGUST 1989

Associations between Nutrition and Cataract, by Allen Taylor, Ph.D. ... 225
"Experimental Cataract in Vitamin G Deficiency": C.S. O'Brien, M.D. ... 235
The EEC Ban Against Growth-Promoting Hormones ... 238
Homocysteine, Folic Acid, and the Prevention of Vascular Disease ... 247
Energy Expenditure and the Control of Body Weight ... 249

Season, Latitude, and Ability of Sunlight to Promote Synthesis of Vitamin D_3 in Skin 252
Urbanization and Breastfeeding in the Philippines 254
Cholecystokinin and Gastric Emptying 255
Nutrition Notes 256

NO. 9, SEPTEMBER 1989

Diversion Colitis: A Nutritional Deficiency Syndrome?, by Vijay P. Agarwal, M.D., and Elihu M. Schimmel, M.D. 257
"The Relationship of Disorders of the Digestive Tract to Anemia": William B. Castle, Clark W. Heath, Maurice B. Strauss, and Wilmot C. Townsend 262
Intestinal Adaptation to Massive Small-Bowel Resection Follows Total Parenteral Nutrition Supplemented with Short-Chain Fatty Acids 267
Pectin Delays Gastric Empyting 268
Cortisol Resistance Is Due to a Defective Steroid Receptor Gene 270
Adolescent Eating Behavior 273
Dietary Regulation of the Intestinal Vitamin D Receptor 275
Role of Intestinal Microflora in Vitamin B_6 Metabolism 277
Fatty Acid–Binding Renal Proteins 279
Nonenzymatic Glycosylation of Proteins in Vivo 281
Differentiation of Preadipocytes Is Regulated by Insulin-like Growth Factor-1 283
Interleukin-1 Regulates Zinc Metabolism and Metallothionein Gene Expression 285
Nutrition Notes 288

NO. 10, OCTOBER 1989

The Effect of Dietary Fatty Acids on Blood Pressure Regulation: A Symposium
Introduction: Timothy A. Morck 289
Dietary Fats and Blood Pressure: A Critical Review of the Evidence: Frank M. Sacks 291
Omega-3 Fatty Acids, Endogenous Prostaglandins, and Blood Pressure Regulation in Humans: Howard R. Knapp 301
Folate, Colitis, Dysplasia, and Cancer 314
"Megaloblastic Changes in the Cervical Epithelium": Nancy Whitehead, Franklin Reyner, and John Lindenbaum 318
Was the Ill-Fated Franklin Expedition a Victim of Lead Poisoning? 322
Physical Fitness and Basal Metabolic Rate 324
Senile Cataract and Vitamin Nutrition 326
Failure to Maintain Weight Loss: Permissive Role of Lipoprotein Lipase 328
Does Tissue Glutathione Level Indicate Organ Senescence? 330
Retinoic Acid and Thyroid Hormone Regulate Gene Expression through a Common Gene Element 332
Aging and Dietary Fat and Cholesterol Transport 334
Nutrition Notes 336

NO. 11, NOVEMBER 1989

What Did Our Ancestors Eat?, by Stanley M. Garn and William R. Leonard 337
"All-Vegetable Protein Mixtures for Human Feeding": Nevin S. Scrimshaw, Moisés Béhar, Dorothy Wilson, Fernando Viteri, Guillermo Arroyave, and Ricardo Bressani 346
Short-Bowel Syndrome: A Case Report 350
Malnutrition and Weight Loss in Patients with AIDS 354
Does Zinc Supplementation Improve Growth in Children Who Fail to Thrive? 356
Making Total Parenteral Nutrition More So 358
Expanding Knowledge of Ascorbic Acid Metabolism 360
Mechanism of Toxicity of Lysinoalanine 362
Bone Morphogenic Proteins and Vitamin D 364
Nutrition Notes 367

NO. 12, DECEMBER 1989

Dietary Beans: A Risk Factor for Cholesterol Gallstones? 369
Does Weight Change in Young Adulthood Influence Long-Term Mortality? 371
Regulation of Growth Hormone Gene Expression by Retinoic Acid 374
Methyl Group Deficiency: Effects on One-Carbon Unit and Folate Metabolism 375
Ascorbic Acid Increases the Density of the Acetylcholine Receptor on Muscle Cells 378
Author Index 380
Subject Index 400
